

TGH

Making Integrations Simpler

Banks Are Going Digital...

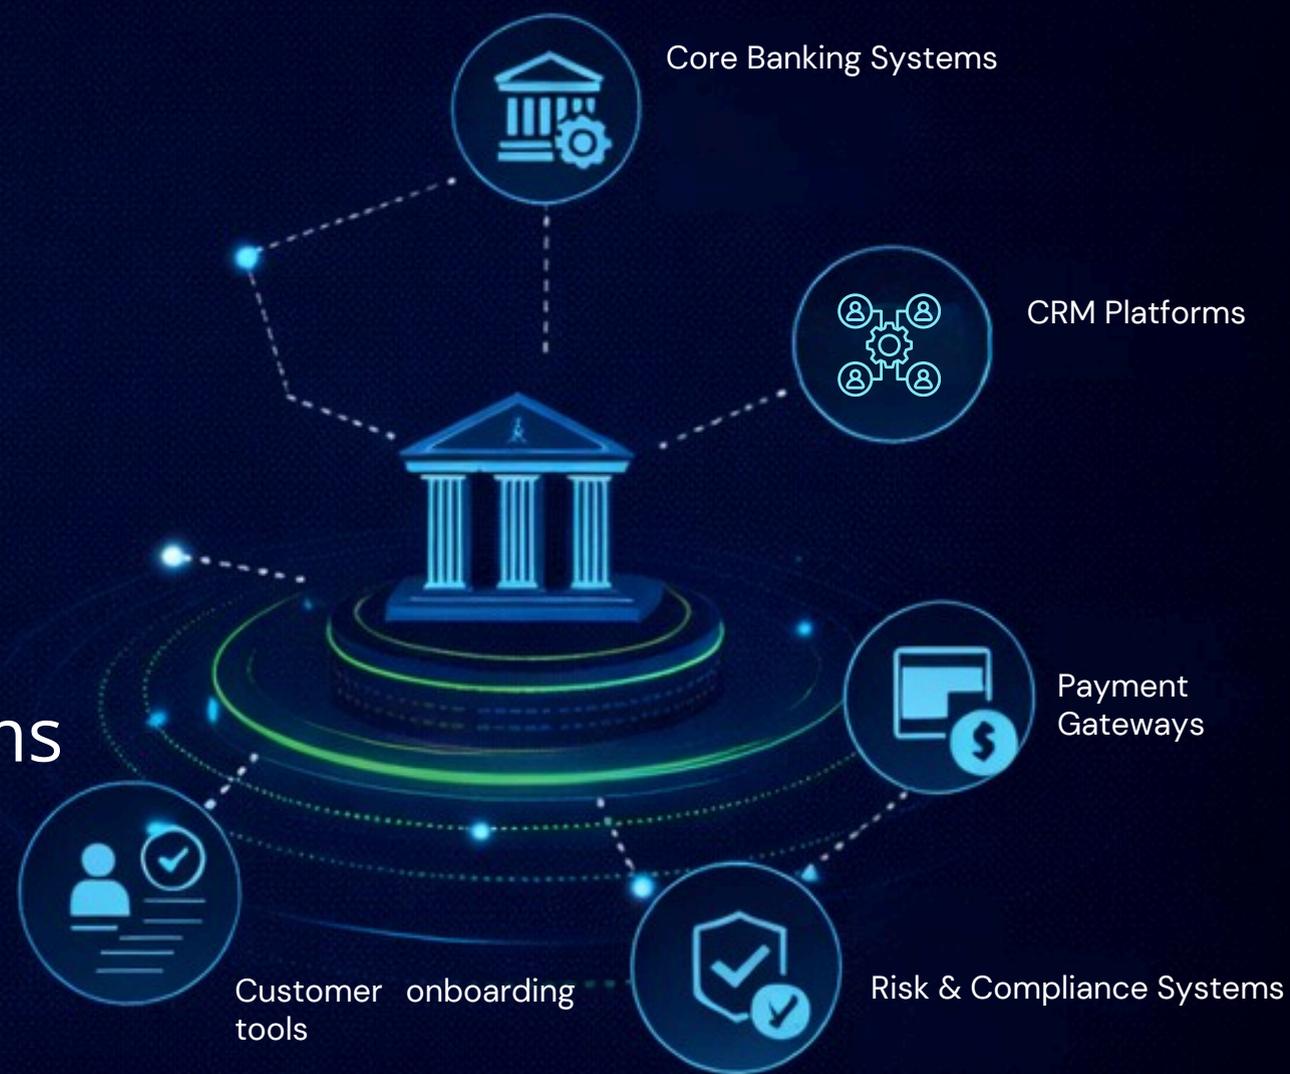

But Their Systems Are Still Disconnected

BANK

Modern Financial Institutions use Multiple Platforms:

- ☑ Core Banking Systems
- ☑ CRM Platforms
- ☑ Payment Gateways
- ☑ Risk & Compliance Systems
- ☑ Customer Onboarding Tools

But Many of These Systems Operate in SEPARATE SILOS.

This creates serious operational issues:

-  Delayed Financial Transactions
-  Slow Customer Onboarding
-  Data Inconsistencies Across Platforms
-  Compliance and Regulatory Risks
-  Limited Real-Time Decision Making

These challenges highlight the need for seamless integration.

The Integration Gap:

When Financial Systems Don't Communicate in Real Time:

- ✓ Customer Experiences Suffer
- ✓ Operational Costs Increase
- ✓ Innovation Slows Down

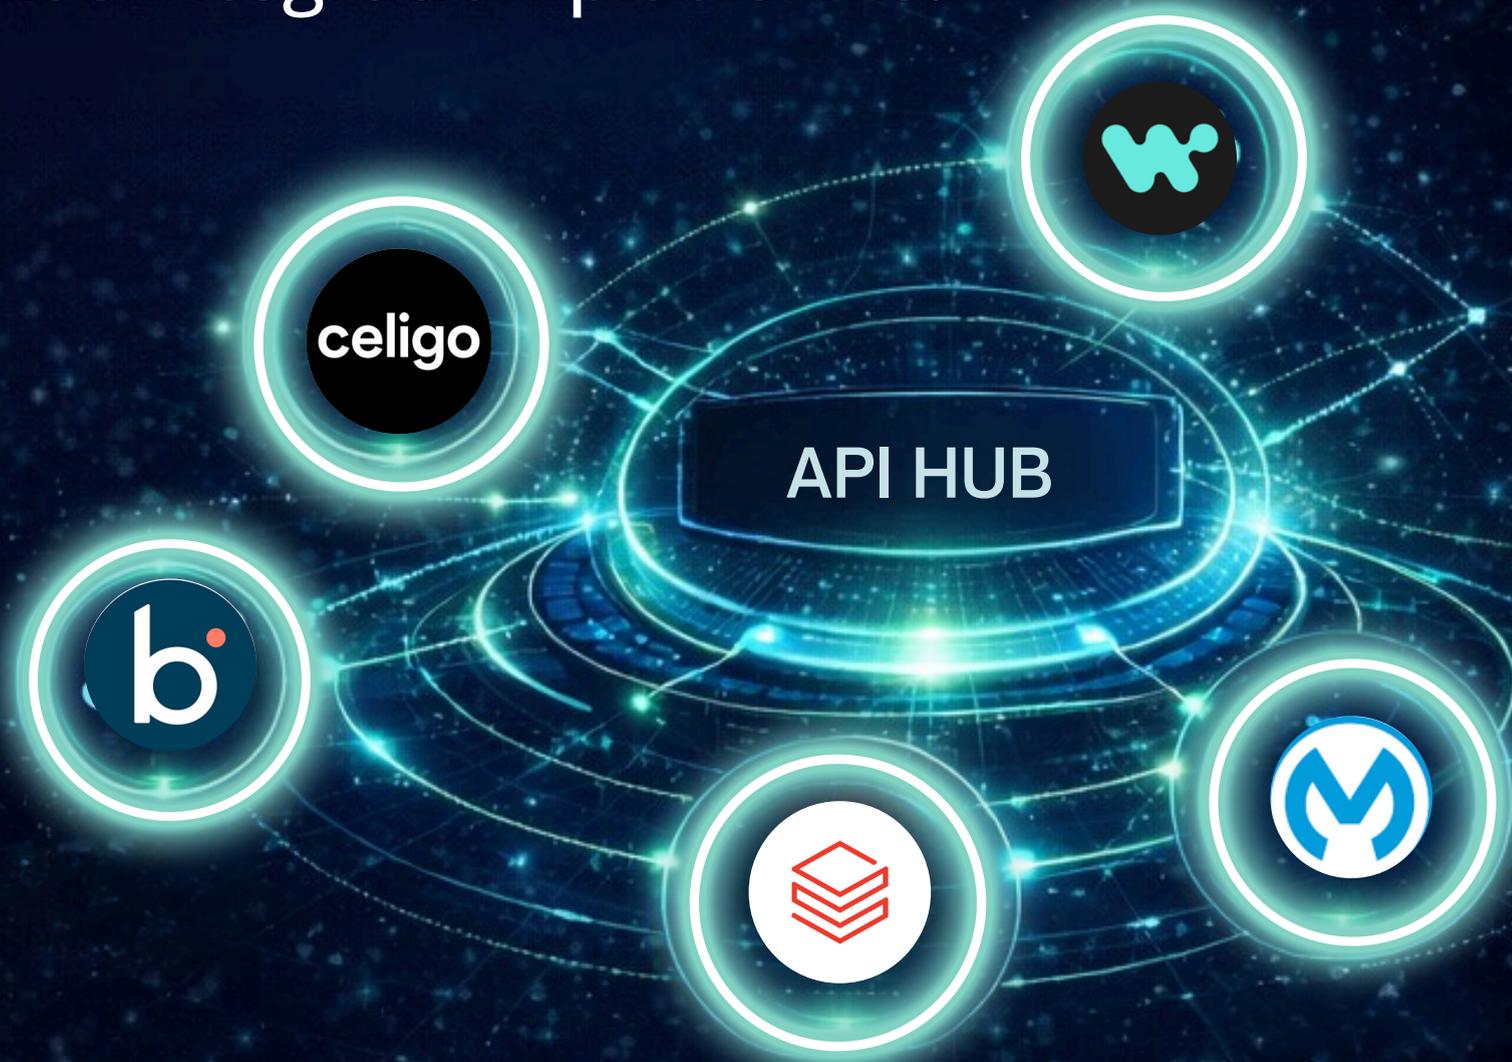

Disconnected Systems Slow Digital Banking Transformation.

THE TGH SOLUTION:

Powered by enterprise integration platforms:

- ✓ Boomi
- ✓ Celigo
- ✓ MuleSoft
- ✓ Workato
- ✓ Databricks

TGH Enables Connected and Intelligent Financial Ecosystems.

BUSINESS IMPACT:

✓ Faster Transaction Processing

✓ Seamless Customer Onboarding

✓ Real-time Data Visibility

✓ Improved Regulatory Compliance

✓ Scalable Digital Banking Infrastructure

TGH Enables Financial Institutions to Thrive in the Digital Age
